Vince Maniago

Product Executive | Advisor
Palo Alto, California, United States

Summary

I have over 25 years of experience taking software products from initial concept all the way to highly successful products that million of users rely on every day. Currently, I'm doing Fractional Product Management and Advising.

Specialties: I like creating great experiences and inspiring others to do the same. I get excited about tools & products that help people and I'm hopeful about the dreams and aspirations we can make a reality once someone gets their money under control and on the right track.

Experience

Opto Investments

Advisor

November 2023 - Present (2 years 9 months)

E*TRADE Financial

Project Manager

May 2000 - April 2004 (4 years)

Managed development timelines, engineers, developers, writers and designers within numerous projects for the Brokerage and Banking divisions

Wrote Product and Technical Specifications

Nortel Networks

2 years 1 month

Project Manager

May 1999 - May 2000 (1 year 1 month)

Santa Clara, CA

Grew my engineering tech lead role into a full-time project manager focused on 2 very large projects stretching over 1 year. Managed the schedule to lead the 20 person team to a successful launch and stay under our \$7 million budget.

Web Engineer

May 1998 - April 1999 (1 year)

Santa Clara, CA

Engineered the development of a personalized web portal for customers to retrieve software, documents and updates using Broadvision CMS and Personalization Technology. Utilized my front-end engineering skills (HTML & Javascript) as well as C++ and SQL/Oracle database programming.

Stanford Linear Accelerator Center

Systems Analyst II

June 1997 - May 1998 (1 year)

Stanford University Menlo Park, CA

- Responsible for the administration, design and architecture of the Mechanical Fabrication Department's website and http/ftp and file server. This required extensive use of HTML, JavaScript, PERL CGI's, Unix, Windows NT and Microsoft Internet Information Server.
- Our team maintained a TCP/IP based, Windows NT network of over 100 PC's, Macs and Printers. Entailed: Project Management, Administration of Windows NT accounts, repairing and expediting of malfunctioning computers and peripherals; installation of memory, hard disks, modems, software and other peripherals.
- Created a materials inventory tracking system from the ground-up using HTML, PERL and Excel to make it easy for users to contribute to the system.
- Purchased, set-up, and serviced machines for numerous departments around site.

Education

UCSB

University of California, Santa Cruz

Continuing Education, Computer Science · (2000 - 2002)
